Help us to shape the future of your waste and recycling services

We want to hear your thoughts on current services in your area – what you like, what you'd change, what you'd like to see.

This will help us to plan improved, consistent services across the whole of Westmorland and Furness.

Complete our **Community Conversation Survey** by scanning the QR code.

You can also join us at one of our Community Conversation events to share your views and hear more about our ambitions to help you recycle more and reduce your waste.
